

ISA ACTIVITY MUN

The Mock UN conducted at Jaypee Public School, Noida, as a part of the ISA activity, turned out to be a very successful activity. The children themselves organised the activity on the UN format based on 2 agendas – undertaken by UN agencies such as United Nations General Assembly on Population Control, United Nations Human Rights Council on Right to Privacy and International Press with a team of Journalists, Caricaturists and Photographers. Special emphasis was given to the collaborator schools from Nepal and Bhutan along with India.

The students participated as delegates, representing the countries. They researched and debated on the topic about these countries and other countries across the globe specifically with reference to issues such as population control and right to privacy. Some students also chaired the role of Secretary General, Director General, President and Vice President for each of the committee which ensured peaceful discussions and resolutions at the end of the session. There was a team of International Press who recorded the deliverance and prepared the evidences of the sessions. There was also the Logistics Team which was the Organising Committee that ensured the smooth functioning of the sessions.

The activity enhanced the confidence of the students on public speaking, presentation skills, critical thinking skills, cooperative learning skills and writing skills. It also broadened their perception towards the working of the UN agencies. The young delegates also learnt the concept of consensus building and drafting resolutions to tackle the issue in their respective countries. They also developed an insight towards the aspects of demography and privacy rights.
