

Jaypee Public School, Noida

Event Report: Cyber Safety Workshop

Introduction:

The Cyber Safety Workshop for classes VI-VIII, organized by Jaypee Public School, Noida, was successfully conducted. The primary objective of the workshop was to raise awareness and educate participants about various aspects of cyber safety, including gaming, cyberbullying, cyber stalking, device safety, and cyber reporting. The workshop was expertly conducted by Mr. Praveen Sharma, a renowned cybersecurity professional, who shared valuable insights and practical tips on how to stay safe in the digital world.

Workshop Agenda:

- Introduction to Cyber Safety
- Understanding Online Gaming Risks and Precautions
- Identifying and Combating Cyberbullying
- Dealing with Cyber Stalking Incidents
- Ensuring Device Safety and Data Privacy
- Reporting Cyber Incidents and Seeking Help
- Q&A Session

Workshop Highlights:

Introduction to Cyber Safety:

Mr. Praveen Sharma commenced the workshop by emphasizing the increasing importance of cyber safety in today's interconnected world. He highlighted the potential risks associated with the internet and the importance of being vigilant while using digital platforms.

Understanding Online Gaming Risks and Precautions:

Participants were educated about the potential dangers related to online gaming, such as cyber threats, scams, and data breaches. Mr. Sharma provided valuable tips on securing gaming accounts, avoiding suspicious links, and interacting responsibly with other players.

Identifying and Combating Cyberbullying:

Addressing cyberbullying, Mr. Sharma shared real-life scenarios and discussed ways to identify and prevent such incidents. Participants learned about the emotional impact of cyberbullying on victims and the role of bystanders in combating this issue.

Dealing with Cyber Stalking Incidents:

The workshop shed light on cyber stalking, a distressing problem faced by many individuals. Mr. Sharma guided the participants on safeguarding their online presence, managing privacy settings, and seeking help if they experience cyber stalking.

Ensuring Device Safety and Data Privacy:

Participants were made aware of the significance of securing their devices and protecting personal information. Mr. Sharma demonstrated various security measures, including strong passwords, two-factor authentication, and encryption.

Reporting Cyber Incidents and Seeking Help:

The workshop emphasized the importance of reporting cyber incidents to relevant authorities and platforms. Mr. Sharma provided guidance on the appropriate channels for reporting different types of cyber threats and encouraged open discussions on seeking help when faced with challenging situations.

Conclusion:

The Cyber Safety Workshop led by Mr. Praveen Sharma proved to be highly informative and engaging. Participants gained a comprehensive understanding of cyber safety, including gaming risks, cyberbullying, cyber stalking, device safety, and reporting procedures. Armed with this knowledge, they are better equipped to navigate the digital landscape responsibly and protect themselves and others from potential online threats.

Ms Avantika Yadav, HoD- Computer Science extends its gratitude to Mr. Praveen Sharma for his invaluable contributions to the workshop's success and looks forward to future collaborations in raising awareness about cyber safety. The event concluded on a positive note with participants feeling empowered to make safer choices in their online activities.
