

JAYPEE PUBLIC SCHOOL NOIDA SHINES AT GLOBAL SUSTAINABILITY AWARDS 2023

Jaypee Public School, Noida has been recognized and honored at the Global Sustainability Awards 2023, organized by **ARCedtech**. The school received the prestigious **"Emerging ESD Champion"** award in acknowledgment of its outstanding contributions to the field of Sustainability.

In the Student Category, Dhrumil Parikh, a Class XII student, has been adjudged as the winner in the SDG 2: Zero Hunger category for his remarkable project, **"Seed Bot."** The **"Seed Bot"** is an innovative agricultural solution designed to enhance the efficiency of micro-level farmers. This revolutionary technology performs a range of essential farming tasks, including soil digging, seed sowing, ground leveling, and irrigation, all within a single integrated system.

In the Educators category, Ms. Tripti Srivastava, PRT – Computer, has been recognized and awarded in the Educators category for her exceptional work for her project **"PowerOff for Brighter Tomorrow"** related to **SDG 12: Responsible Consumption and Production**. Her contribution to the field of SDG integration with multiple subjects. Furthermore, Ms. Avantika Yadav, Head of the Computer Science Department, has secured the Gold award in the Innovation Category for her project, **"Sustainable Forge -Fostering Sustainability Education through Leadership and Innovation."** Her distinguished contributions, in the form of sustainable projects based on AI, Robotics, ML, and Data Science, have been instrumental in promoting sustainability education.

It is a moment of immense pride for the school management and staff for these impeccable achievements of the JPS, Noida team, which reflect their commitment to sustainability and the development of innovative solutions in various fields.
