

## **Report on Calligraphy Activity**

“Reading makes a full man,  
Conference makes a ready man  
And writing makes an exact man.”

Learning calligraphy is a skill; it takes a lot of patience and practice. It not only allows a child to see each word and phrase but also helps to develop fine motor skills and memory retention. With this perspective, Jaypee Public School, Noida conducted English Calligraphy activity for the students of class VI during the literary week.

The aim of the activity was to encourage the students to write neatly & present the content in a proper manner. The students made beautiful bookmarks with the quotes related to Save Earth, Save Resources, Environment our Life and exhibited their writing skills through different forms of calligraphic fonts.

The activity turned out to be very meaningful for the students as Calligraphy not only improve writing skills but also teach students about their unique structure and beauty of the language.

The activity staunchly exhibited that calligraphy is an art form that depicts the very soul of words on paper.
