

Technovation Challenge 2018

Every year, Technovation invites teams of girls from all over the world to learn and apply the skills needed to solve real-world problems through technology. Over 19,000 girls around the world registered to participate in Technovation 2018. For Delhi-NCR regional Ambassador was Mr. Neeraj who coordinated this event in association with **Adode India, Sector 132, Noida**. Six girls (**Bhoomi Thakwani, Khuushi Agarwal, Khushi Sharma, Kyra Goel, Ayushi Chauhan and Bhavika Gupta**) from **Jaypee Public School, Noida** also got opportunity to participate in the event, in two teams, Team-Innovators and Team Code Lockers. Where, these girls learnt how to develop mobile App in coordination with the mentors provided by Adobe and school mentor- Ms Avantika Yadav.

These Code Girls, from Jaypee Public School Noida, selected the idea of developing an App – “**Pets App**” for helping stray animals or sick animals and another App- “**Learning4All**” for helping under privileged children in their studies and providing them resources needed for the same.

It was a great learning experience. Both the Teams performed well in the event and they have received Trophies for their excellent execution of prototyping, presentation and coding skills.
