

#CAMPONLINE- SUMMER CAMP

As candidly stated, “Adversity is the true test of character and resistance is what treads new endeavours.” This year’s summer camp, “#CAMPONLINE”, aptly signified how we all had to tear up our perfect schedule and embrace a new reality of replicating it on a more boundless scale, without an actual school building.

Scheduling a summer camp during this new normal has been quite a challenge but this pandemic has proved that, “Internet is no more a privilege but a necessity”. Through carefully planned activity schedules and innovative pedagogical practices delivered by our trained faculty, together we have been able to face the innumerable challenges and establish formal scaffolding conducive to learning during these testing times thereby providing all Jaypians with a plethora of stress busting activities.
